Super soft care cloth for cleaning sensitive surfaces such as touchscreens, displays and cockpit areas. The P-9000®-Microfiber removes greasy stains like fingerprints perfectly and ensures absolutely shiny surfaces – reusable and without chemistry.

**Type of application**

- Preferably apply damp. Test in advance on an inconspicuous area.
- Please follow the care instructions of the manufacturer of the surface to be cleaned.
- After use, always keep the cleaning cloth dust-free in the packaging.

P-9000®-Microfiber  
(80% polyester | 20% polyamide)

Hand wash recommended. Do not use fabric softener. Please note that colour-intensive textiles may rub off.
